**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of group I, claims 1-10 in the reply filed on 6/15/2004 is acknowledged.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Regarding claim 1, the phrase "principally" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Regarding claims 4 and 5, the phrase "particularly effluent from the food or agro-food industry" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language.

The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 1 recites the broad recitation 60-90%, and the claim also recites "preferably about 80% by weight of klebsiella oxytoca" which is the narrower statement of the range/limitation; 5-20%, and the claim also recites "preferably about 10% by weight of bacteria *Serratia odifera*" which is the narrower statement of the limitation; and 5-20%, and the claim also recites "preferably about 10% by weight of bacteria *Aeromonas Hydrophyla*" which is the narrower statement of the limitation.

Claim 7 recites the broad recitation "less than 40 g/l", and the claim also recites "preferably situated between 0.5 g/l and 10 g/l" which is the narrower limitation.

Regarding claim 6, the phrase "preferably" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 uses the term "composed of" which is considered to be indefinite since it is unclear if the term constitutes "open" or "closed" language.

Claim 4 provides for the use of the bacterial composition according to claim 1, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 4 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

#### ***Claim Objections***

3. Claim 5 is objected to because of the following informalities: the preamble of claim 5 should be "A process..". Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by the article by Dilek et al. cited by applicant.

Claim 2 defines a composition comprising *Klebsiella oxytoca* and *Serratia odorifera* or *Aeromonas hydrophyla*.

The abstract of the Dilek et al. article discloses a composition contained within a sludge reactor for treating brewery wastewater which comprises *Klebsiella oxytoca* and *Aeromonas hydrophila* which reads on the claimed composition defined in claims 1 and 2.

***Allowable Subject Matter***

5. Claims 3-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
